

**Time Critical Diagnosis (TCD) Task Force
Planning Meeting Three
February 28, 2008**

**Governors Office Building
Jefferson City, MO**

9:00-9:30 a.m. Steering Committee

Task Force Meeting

9:30-9:45 a.m. Welcome and Overview of the Day

9:45-10:00 a.m. System Process Map—Where are we now?

10:00-10:30 a.m. “The Perfect Storm”

- Time-limited resources
- Legislation status and relation to the process
- Missouri’s TCD Approach—Unique & Bold

10:30-10:45 a.m. Break

10:45-11:45 a.m. Oversight and Administrative Issues to Support TCD System

- Review of Missouri and other states’ oversight approaches
- Evaluation Framework

(Small Group Discussions on Attached Questions)

11:45-12:15 p.m. Report Out

12:15-1:00 p.m. Working Lunch

1:00-1:45 p.m. Identify Common TCD Elements for Both Stroke and STEMI

(Out-of-Hospital and Hospital Work Groups)

1:45-2:00 p.m. Report Out

2:00-3:30 p.m. Task Force Assignments for Presentation on Each Element
Finalize Elements
Revisit Gaps, Barriers, Priorities
Break as needed

(Stroke and STEMI Work Groups)

3:30-4:00 p.m. Next Steps and Adjourn

Oversight and Administrative Questions

1. Does the Task Force support a Time Critical Diagnosis System that:
 - Integrates stroke and STEMI in a distinct yet parallel manner to the trauma system, or
 - Maintain three totally separate systems (stroke, STEMI, trauma)?
2. What type of approach is recommended for managing the system?
 - Voluntary quality improvement format (North Carolina RACE)
 - Regulated program (Maine, Missouri-trauma)
 - Proprietary, separate system (Minnesota)
 - Other
3. What entity or where should the overall operational management be housed?
 - Within state government (Missouri Department of Health and Senior Services, like trauma)
 - Private institution or organization
 - Other
4. How should the operational management and oversight of the system be supported and funded?
 - Through state and federal government budget support.
 - Through fees, donations or other private funding
 - Other
5. How should the ongoing advisory, planning and quality improvement functions be managed for the system or which entity should perform these functions?
 - Add Time Critical Diagnosis sub-committee to existing EMS-State Advisory Council (governor-appointed)
 - Create new independent advisory group to perform these functions
 - Have existing professional associations coordinate these functions
 - Other
